### Protecting our Environment

 Protecting Our Local Environment: Small Actions, Big Impact! 

Hey, Highlands! We can all be proud of the beauty of our river, beach, woods, and trails. But did you know that our small actions can make a BIG difference in keeping these places pristine?

Here's why it matters:

- Our River: The Shrewsbury River is home to countless species and is a crucial part of our local ecosystem. Reducing waste and keeping trash out of the water helps protect wildlife, keeping the river clean for generations to come! 
- Our Beach: Every time we pick up litter or reduce plastic use, we're helping to protect marine life. Plastic waste can end up on our beaches, harming animals and disrupting the coastal ecosystem. 
- Our Woods & Trails: Keeping the woods clear of debris and respecting wildlife habitats ensures that our trails stay beautiful and safe for everyone—whether you're hiking, biking, or simply soaking in the peace of nature. 

 How YOU can help:

-  Reduce waste by recycling and picking up after yourself.
-  Conserve water—turn off the tap when you don't need it!
-  Make eco-friendly choices to keep our air, land, and water clean.

We want to hear from YOU!  What small actions do you take to help make a big impact on our environment? Drop your ideas in the comments below and let's inspire each other! 

Together, we can protect the treasures of Highlands! Let's make a change for a healthier, greener tomorrow!
