

Pet Waste 101:

The "Paws-itively" Responsible Way to Keep Our Town Clean and Our Rivers Clear!

Hey, dog lovers!   We know your dog has to go, but when nature calls, let's make sure we're answering responsibly!  

 **BREAKING NEWS: FREE pet waste stations are scattered all over town!** 

That's right—no excuses! Grab a bag and pick up after your furry friend. 

 What to do when your pet's bag is full:

Take it to the nearest pet waste station (they're everywhere!).  

DO NOT leave it on the ground. Leaving the bag means it could end up in our beautiful river, and that's one "current" problem we don't need!  

 Why it matters: When pet waste is left on the ground, rain can wash it into storm drains, which eventually lead straight to our rivers. Yikes! This can harm wildlife, pollute the water, and make things smelly for all of us. 

Let's keep our sidewalks clean, our rivers clear, and our town paws-itively pristine!  

Borough of Highlands
