

Green Team Initiative July 2025

Have a Zero-Waste Beach Day!

Highlands, it's time to make our beach days even better for us and the environment!  By going **zero-waste**, we can reduce our impact and help keep our beautiful beach clean and safe for everyone. Let's have a day at the beach not only fun but eco-friendly too! 

Here's how you can make your beach day zero-waste:

- **Bring Reusable Bottles:** Skip the plastic water bottles! Bring a reusable bottle to stay hydrated all day long. 
- **Pack Eco-Friendly Sunscreen:** Choose sunscreens that are reef-safe and biodegradable to protect both your skin and the environment.  
- **Use Reusable Bags:** Bring your snacks and essentials in reusable bags and containers to cut down on single-use plastics. 
- **Take Your Trash with You:** Remember to bring a trash bag and pick up after yourself. Keeping the beach litter-free ensures it stays beautiful for all to enjoy! 

How YOU can help:

-  Choose sustainable options for your beach essentials.
-  Share your waste-free ideas and inspire others to do the same!
-  Make it a habit to always pack out what you bring.

We want to hear from YOU!  What eco-friendly items do you ALWAYS bring to the beach? Share your go-to beach essentials in the comments below and let's inspire each other to reduce waste!  

Let's enjoy our beach in the best way possible without leaving a trace!
